## The Art of Living

Wallcoverings are truly transformative—especially when they feature room-altering murals.

Their subjects are as varied as paintings in a museum: bright botanicals, far-flung landscapes, the interplay of light and darkness.

But each one has the power to turn an ordinary room into a visual masterpiece. Many brands offer customizable options, so elements of the design can be changed, eliminated, and even fully rescaled to fit specific dimensions.

As designer Andrew Howard points out, “A mural can really bring a room to life.” —Carisha Swanson

Howard wrapped this two-story foyer in **Japanese Cranes** by [Iksel](#) to create an arresting entry point that evokes the marshes just outside. [schumacher.com](#)
